Michtav Bracha

I have examined Rabbi Yosef Sebag's work on Torah numerology and found it full of fascinating and profound insights. The mechaber is a Ben Torah and Yarei Shamayim and all of his work is based on authentic sources in Talmud, Midrash, and Sifrei Kabbala. He has uncovered deep layers of meaning in the very first pasuk of the Torah alone. One who reads and studies this work will have a new appreciation for the infinite and hidden depths of every word and letter of the Torah and will be inspired to seek them out on his own. May the mechaber be zoche to continue these wonderful studies and be a catalyst for zikui harabbim and haramas keren haTorah
